

## CHANGES TO THE TOWN MEETING 3/27/26.

Please share with other community members

Thanks to the sharp eyes of a couple of community members, we uncovered several omissions, and discrepancies in the town warrant and subsequent articles. After consultation with the towns attorneys as well as several communities, which lent a hand today. The process for tomorrow's announced town meeting will be changed. Per State regulations the meeting will be opened on the scheduled date, a motion will then be required to adjourn/move the meeting to a date which will allow for proper corrections to the report, a reprinting of said report and the required 7 days notice of the meeting and the reports availability to be reviewed prior to the meeting Per Maine State Municipal Statutes. That date should be known by tomorrow's meeting and included in the motion.

We welcome your attendance at tomorrow's meeting albeit a very short meeting. The select board as the governing authority for the municipality takes full responsibility for these errors in the town report and would welcome your review of the revised document once it becomes available.

Respectfully Select Board Members

Sheila Doughty (Chair)

Mike Bishop
